THE ECONOMIC TIMES

**“ What is PPF? ”**

PPF is a transparent film made of thermoplastic urethane

It protects car paint from UV rays and prevents paint fading

Protects from scratches, bruises & nail marks

It has water repellent property (hydrophobic)\*

## THE BIG IDEA

Proteq auto care was established in 2016 by young car euthanistic entrepreneurs with the intention of authoring India's most effective, efficient and excellent quality paint protection film (PPF) and detailing services with utmost determination and commitment.

The young minds and risk takers Mr. Nikit Zaveri, Mr. Saumin Sanghavi and Mr. Chirag Shah began their journey by starting a business venture in collaboration with a renowned and experienced company. They worked their vision from ground level, learned the procedures, gained experience and witnessed the beginning and rising of Paint Protection Film. They acquired 5 years of experience in auto care industry, simultaneously bearing a vision in their hearts and minds of launching their own brand. While working with determination and waiting for the right opportunity they found a gap in the market. They observed a gap between the high pricing and quality in the services. Companies providing the Paint Protection Film and detailing services were either charging high prices enabling middle-class customers from enjoying

the service or local market providing cheap materials henceforth damaging the car.

Every great business is born between challenges and a market gap. A business is a

problem-solving and answer giving institute.

An opportunity knocking on their doors, answered with laying the foundation of PROTEQ with 5 years of rich experience of performing PPF and detailing services on more than 5000+ cars. The founders initiated PROTEQ on the grounds of values and experience. At Proteq, a team of car lovers who eat, sleep and breathe cars understand your affection and emotions towards your car. Your car is the second greatest

investment you make after your home and it is the step of achievement and success in your life. Your dream car deserves a special treatment and care.

We specialize in Paint protection film(PPF) which is a self-healing film applied to the painted surface on your car in order to protect the paint, preserve the quality, minimize damage and for easy maintenance.

We can't wait to start this journey with you and your dream car. Come ride with us, scratch proof!
